GEOFOOD STYLE GUIDE

An official brand from

MAGMA
GEOPARK
norway

www.geofood.no

GEOfood is an international brand for
local food in UNESCO Global Geoparks.

Sustainable local food from unique geological areas.

Logo

- The GEOfood logo must not be changed. See examples on page 5.
- The GEOfood brand can be used together or combined with other quality brand or Geopark brand (recommended). See examples on page 12.
- **The UNESCO logo cannot be displayed in any commercial products!**
But it can be use in leaflets or advertising without commercial purposes.
- The brand cannot be use for the promotion of any activities which are not aligned with the general UNESCO Global Geoparks values.

Original logo

Flat version

Outline version

Social media version

Minimum size 7 mm

Logo

The GEOfood logo has a simple recognizable shape, with a bright and clear colour as part of its identity. It is important for the brand development and identity that the guidelines are respected. We encourage the use of the original green colour.

Black or white versions of the logo can be used if colours are not possible, or the logo of the company requires it.

Minimum size 35 mm

Minimum size 32 mm

Logo

A combination with the Magma Geopark logo that reflects and partly explains the origin of the GEOfood brand. Recommended use wherever possible.

Do not change shape of logo

Do not change color on logo

Logo

The logo must not be changed in any way! It is important for the brand identity that the guidelines are respected. We encourage the use of the original green colour. Black or white versions of the logo can be used if colours are not possible, or the logo of the company requires it.

Font

Source Sans Pro and Caveat are Google font and can be downloaded from fonts.google.com.
These fonts are recommended used on all written material.

Pattern

The pattern can be used as a decorative visual element.
The pattern reflects the idea of area/land, and is recommended used in grey or brown.

Photo style

Whenever possible pictures should show happy producers, beautiful Geopark landscapes and delicious food. Green, natural colours are recommended. For example add some green salad to an otherwise grey plate of meat. Pictures play a huge part in the development of the GEOfood identity.

What is **GEOfood**

*Sustainable local food
from unique geological areas*

Folders and brochures

Example of front of GEOfood brochure.
An international brochure and local version is developed to be used by partners.
Please contact us for a design template.

EXAMPLES:

Food label

GEOfood products must have a strong connection with the local geological heritage, and specific brief information concerning this connection must be provided on the food products and in the GEOfood restaurant menus.

The origin of the raw material must also be clearly described on the label, again in connection with the geological heritage.

Minimum size
